

After hearing *George Greatrex* at a *CAI* seminar, we decided we needed an attorney who specializes in *HOA* matters and retained *George*. Within a few months we found out how important that was. He corrected our *ADR* procedures which violated *DCA* requirements, discovered that our age restriction policy violated our covenants and township rules, and informed us that we were violating state law by making "binding decisions" at meetings that were not open to residents. For ten years we had operated without the advice of an experienced *HOA* expert. We were fortunate to find him. He is an excellent attorney and we highly recommend him to all common interest community associations.

Paul M. Raetsch
