

February 20, 2008

To the Law Offices of Shivers, Gosnay and Greatrex:

This letter is written to express the gratitude that I have for the work that you and your staff have extended on my behalf.

The referral to Donald Gosnay and his law firm came through another attorney. She gave Donald an excellent reference stating that she felt he was a most capable attorney to handle our mesothelioma case. I have not been disappointed with her recommendation.

My husband and I met you, Donald and your team, at a time of extreme distress in our lives. Overnight, my husband went from a vibrant, active human being to a terminal cancer patient. His illness and subsequent death changed my life and my family's lives forever. One consequence of these circumstances is that I have several dependents counting on my support. The settlements from the asbestos litigation have helped ensure some sense of financial security.

Since the companies involved in asbestos litigation filed for bankruptcy protection three days after our case was settled, the litigation process has been prolonged. During this lengthy process, Donald and the entire staff have presented as compassionate, caring, and professional individuals. Donald has worked tirelessly and aggressively to obtain settlements from the asbestos industry. He has kept me informed regarding the status of the case providing periodic updates and answering my questions in a timely manner.

I want to convey my gratitude to the efforts and personal attention that you, Donald, and your entire team have extended on my behalf.

Sincerely yours,

Arlene S. Feidt
