Mr. Gosney,

My daughter and I thank you for taking personal interest in our legal needs. We were happy with your thorough research of the facts, your detailed explanations of how the case was going, and your keeping us informed as the case progressed. We were especially impressed with your apparent empathy for my disabled husband while visiting him in the Veteran's Home, as well as the compassion you showed for all those involved in this case.

Thank you again for your services and for being a friend,
